GETTING HELP – Did the customer think about ...

1. Checking our Frequently Asked Question (FAQ)?
   Please go to our website: http://www.emtec-international.com/en-eu/faq to find solutions.

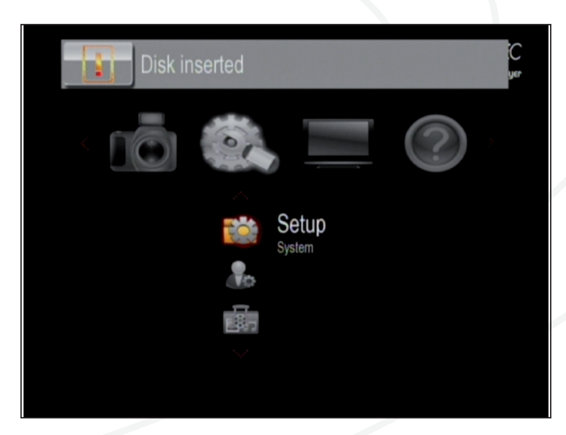

2. Contacting our technicians?
   You can contact our technicians using our Emtec Online Assistance form.
   Please check our website: http://www.emtec-international.com/en-eu/online_assistance

3. Updating the firmware?
   A vast majority of the issues can be solved by updating the product yourself.
   Please check our website to download the latest version of the firmware:
   http://www.emtec-international.com/en-eu/firmware_mc_list

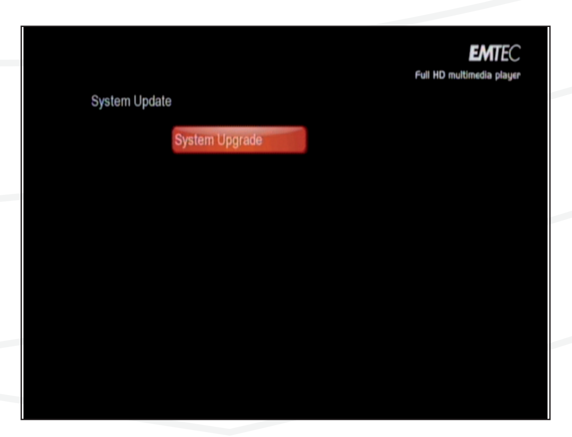

HOW TO UPDATE THE FIRMWARE ?

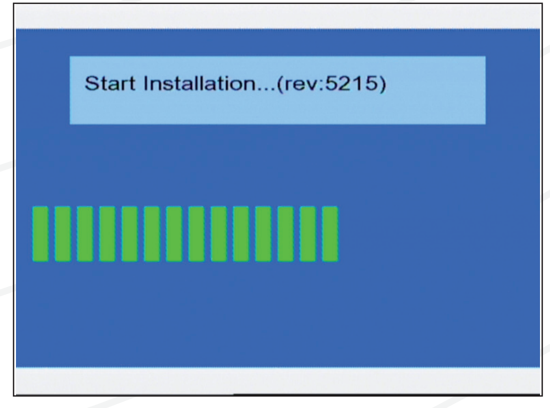

1. Copy the 'install.img' file to the root directory of an empty USB stick.

2. Plug the USB stick into the Movie Cube and from this menu select "Setup" then "System".

3. Select the line "System Update". The above screen appears. Press ENTER on the remote control.

4. The system will reboot and the firmware upgrade will start. DO NOT UNPLUG THE USB KEY DURING THE UPDATE !
